

THE NAME:

B e e r u nⁿ g

"Beerunng" comes from the word "rang", meaning *color* — a symbol of culture, emotion, and expression across many Indian languages.

The added idea of "rungs" reflects the steps and stages we move through in life — the *social rungs* that influence how we grow, evolve, and express ourselves.

Beerunng represents this journey of everyone having their own path, their own rung, and their own way of blending who they were with who they're becoming.

Some draw from tradition, others from modern influences — and many find themselves in the space where both meet. Therefore, Beerunng.

BRAND STORY:

Beerunng is born from the meeting point of two worlds — the modern ease of the West and the deep cultural roots of India.

We draw inspiration from everyday traditions, local crafts, global art, and the stories we grow up with. From street corners to festivals, from denim to handmade prints — everything becomes a spark for creation.

Each piece is carefully curated, shaped through ideas that feel familiar yet fresh. Designs that blend culture with comfort, craft with simplicity.

Beerunng creates clothing that fits seamlessly into your day — streetwear you can live in, minimal styles you can make your own.
